***Supply & Demand Chain Executive Announces Its
2009 Supply & Demand Chain Executive 100***

Leading Business Magazine Presents Annual Listing of
Innovative Supply and Demand Chain Vendors

New York — June 25, 2009 — *Supply & Demand Chain Executive* Magazine, the executive's user manual for successful supply and demand chain transformation, this week announced its eighth-annual listing of the Supply & Demand Chain Executive 100.

Eight years ago, *Supply & Demand Chain Executive* announced its first "100" list of supply chain solution providers, consultants and other organizations that were helping lead the way in transforming companies' supply and demand chains. This year the magazine focused the criteria for its "100" feature on economic recovery.

"Our readers turn to *Supply & Demand Chain Executive* to learn about solutions and best practices for enabling the supply chain to weather the current economic storm in which we find ourselves, and also to position themselves for growth when recovery takes hold." explained Andrew K. Reese, editor of *Supply & Demand Chain Executive*. "The corporate executives and line-of-business leaders who rely on the magazine want to know what the different supply chain solution and service providers are doing to help them meet these critical, corporate 'life-or-death' challenges."

Supply & Demand Chain Executive has identified leading providers of supply chain services and technologies who are helping their customers and clients both respond to the downturn and, more importantly, position themselves for growth ahead. Based on submissions to the "100" from end users and solution providers, the judging committee for the "100," including the editorial staff of the magazine, in conjunction with the editorial advisory board, has compiled a list of leading supply and demand chain innovators.

"Our goal with this year's '100' is to highlight a broad range of solutions and services targeted at a variety of industries, addressing the needs of companies of varying sizes, and assisting in the transformation of a diverse mix of the functions that make up the supply chain," added Reese.

-more-

"Therefore, our judging committee looked for solutions across a variety of industries, addressing the needs of companies of varying sizes, and assisting in the transformation of a diverse mix of the functions that make up the supply chain."

After receiving nomination forms, the *Supply & Demand Chain Executive* judging committee culled through them to find the applicants that best fit the above criteria. Final recipients are featured in the cover story of the June/July 2009 issue of *Supply & Demand Chain Executive*, as well as online at www.SDCExec.com/SDCE100.

About Prorizon Corporation

Since its founding in 1992, Prorizon has grown to be a leading Procurement Services Provider (PSP) serving Fortune 1000 companies in 30+ countries around the world. The organizations we support include such internationally respected companies as ING, Computer Sciences Corporation, Bombardier Transportation, Motorola, Basell, ChoicePoint and Nortel Networks, all of whom trust Prorizon's superior products and services. The reason PRORIZON™ has been so successful is our combination of technology expertise and customer service. We pride ourselves on being able to focus on the core services that your company really needs and can use right away. And then we deliver them... not in months or years, but within a few weeks of project approval! Prorizon has become an expert on doing the routine things very, very well. As an Internet-based system, our Comm-Plete® procurement system is easy-to-use and highly adaptable with minimal re-training. It can be customized and deployed rapidly and implemented with minimal business disruption at national or multinational client sites.
